## EDUCATION

### Vellore Institute of Technology, Chennai

Chennai, India

*B.Tech in Computer Science & Engineering (AI & Robotics) – CGPA: 8.48/10*

*Expected May 2027*

- **Coursework:** DSA, DBMS, Operating Systems, Computer Networks, Machine Learning, AI

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, SQL, R, C, C++

**Backend:** Spring Boot, Node.js, REST APIs

**Frontend:** React, HTML, CSS, Tailwind

**Databases:** PostgreSQL, MySQL

**Data & ML:** Pandas, NumPy, Scikit-Learn, TensorFlow, Power BI

**Tools:** Git, GitHub, Docker, Linux, Postman, Streamlit

## EXPERIENCE

### Business Development Intern

Sep 2025 – Dec 2025

*Sentrix Robotics Pvt Ltd*

*Remote*

- Developed automated analytics pipelines using Python and SQL to process CRM and operational datasets.
- Developed Python and SQL-based analytics pipelines and interactive dashboards for business performance monitoring.

### Visteon SCHOLAR Program (Selected)

2025

*Visteon*

- Selected for Visteon's flagship SCHOLAR Program based on academic excellence and technical aptitude.
- Participated in industry-led training on automotive software systems and engineering practices.

## KEY PROJECTS

### CloudSync | Java, Spring Boot, PostgreSQL, Redis, Docker, React

2026

- Designed a distributed file storage system with separate services for authentication, metadata management, and object storage, supporting chunked uploads and file versioning.
- Implemented SHA-256-based content deduplication and resumable uploads to improve storage efficiency and reliability for large file transfers.
- Developed asynchronous background workers for file processing and integrated Redis caching to improve metadata access latency and support concurrent client requests.

### EVision | Python, Scikit-Learn, PostgreSQL, Power BI, Streamlit

2026

- Developed an EV analytics platform for battery health monitoring and range prediction using ML regression models on vehicle telemetry data.
- Engineered PostgreSQL data pipelines processing 50,000+ telemetry records; built dashboards for energy consumption and performance metrics.

## PUBLICATION

### AI-Driven Anomaly Detection in CT-Guided Procedures

2025

*CINS 2025 (IEEE-associated), BITS Pilani Dubai*

*Dubai, UAE*

- Co-authored research proposing a sidecar AI architecture for low-latency computer vision inference and real-time surgical decision support.

## LEADERSHIP & POSITIONS OF RESPONSIBILITY

### Operations Manager | Core Committee Member

Dec 2024 – Aug 2025

*Event Managers Club, VIT Chennai*

- Led 300+ events with 10,000+ participants; managed teams of 25+ and coordinated volunteers and vendor operations at scale.

## CERTIFICATIONS

[Oracle Data Science Professional](#) | [Oracle Generative AI Professional](#) | [Python, C & C++ – IIT Bombay](#) | [Advanced Excel Certification](#)
